

TM SERIES Receives CTI Certification

October, 2002

Delta Cooling Towers TM Series™ cooling towers has received Cooling Tower Institute (CTI) Certification for thermal performance. The TM Series is Delta's largest capacity cooling towers with models from 250 to 2000 cooling tons. Multiple tower systems can service higher tonnage applications.

The Certification covers all ninety-six (96) TM Series models using the CTI Certification Validation Number 02-24-01.

Further information on Delta Cooling Towers is available at www.deltacooling.com.
